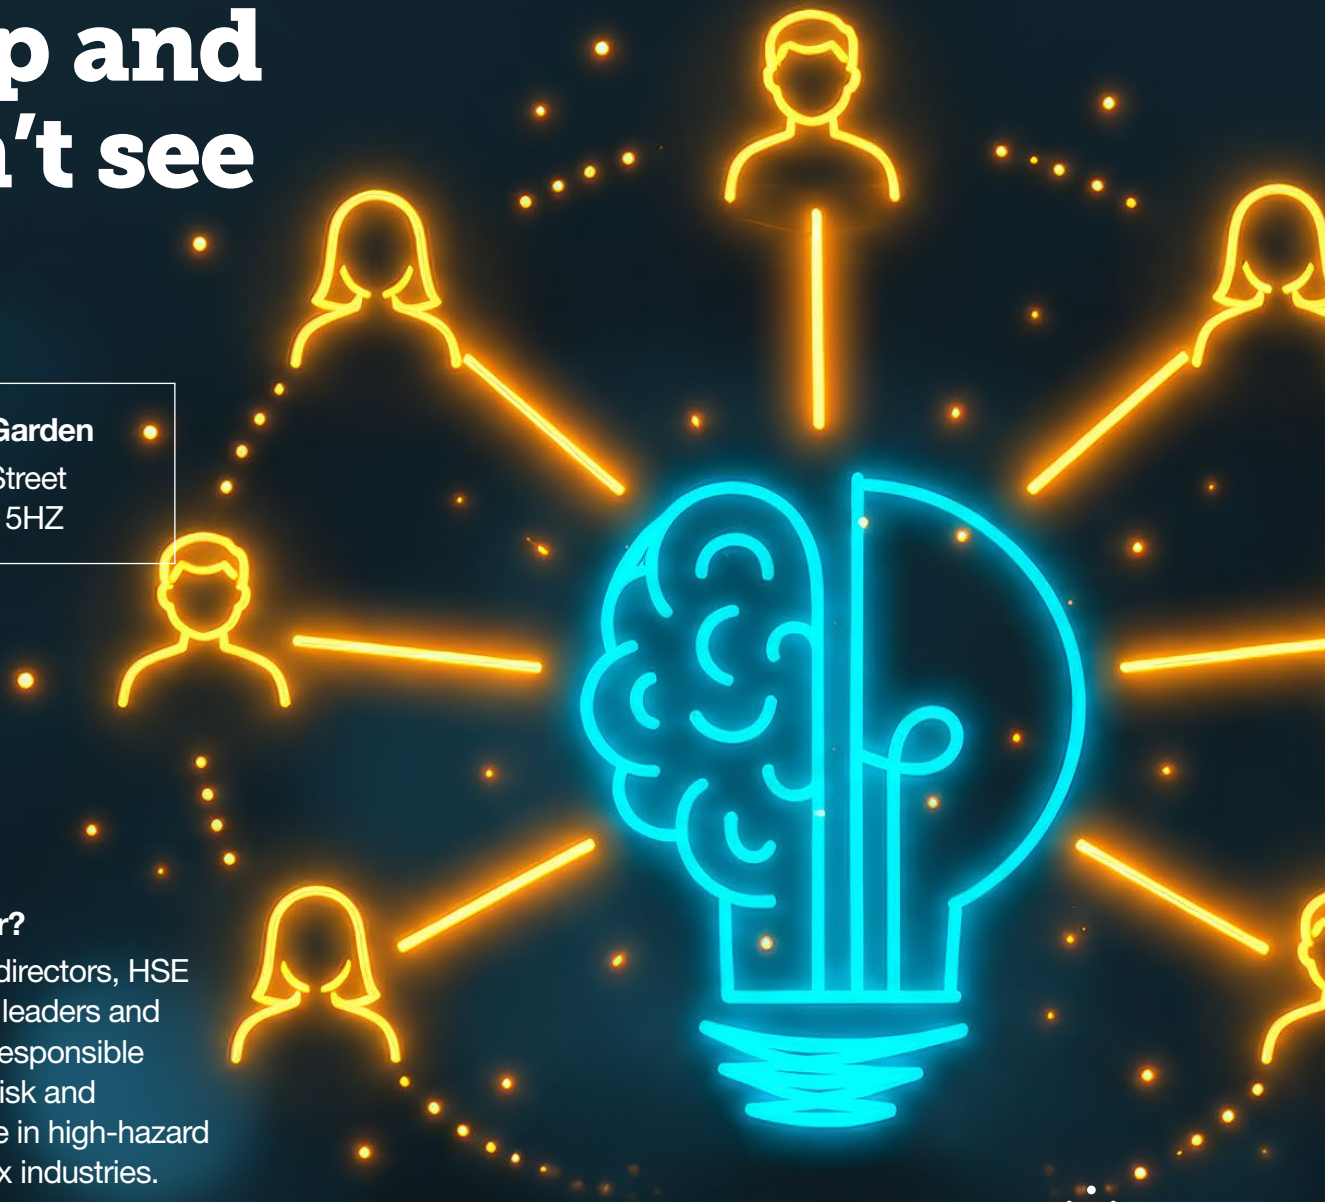
Lunch, leadership and the risks you don't see

An invitation-only networking lunch on psychosocial risk and safety culture

Thursday 28th January 2027
12:00pm to 2:00pm

Harry's Covent Garden
11-12 Russell Street
London WC2B 5HZ



Most organisations measure psychological safety - far fewer manage the hazards behind it, such as workload, fatigue, unclear roles and pressure to hit targets.

Join a small group of senior leaders over lunch to compare notes, share what's working and what isn't - and build connections with peers facing the same challenges.

What to expect:

- An open, peer-led conversation with time to meet senior leaders who share your pressures and responsibilities
- The chance to hear how other organisations are approaching psychosocial risk
- A relaxed lunch on a small table, so everyone gets the chance to network.

Who is it for?

Operations directors, HSE leaders, HR leaders and executives responsible for people, risk and performance in high-hazard and complex industries.

Places are limited - we'd love you to join us so please email to confirm your attendance by 30th November 2026, email: events@tribecc.com
